Minutes

- ❖ Meeting was started by Lindsey Wood, Principal. Purpose and role of committee was explained and members welcomed.
- ❖ PE/Conference Time:
 - Ms. Wood explained there had been concerns regarding the current PE/conference schedule being done by department. Teachers have stated that changing this to being done with teams would be more beneficial. Ms. Wood explained that the teachers had voiced concerns that they did not have team planning time. PLC time would stay the same and allow for departments to meet during that time.
 - Ms. Wood ask the teacher representatives to go to their grade and get feedback regarding this topic. She would like them to get opinions and votes from the teachers in writing and the committee will meet briefly next week to vote on the outcome. The three grades can decide on different outcomes. They do not all have to agree but the majority will win for the grade.
- ❖ Dances:
 - Ms. Wood explained how the intermediate school “dances” have worked in the past. School sponsored as well as community sponsored were discussed.
 - School Sponsored: STUCO will sponsor student “socials” but will no longer advertise as “dances” due to the negative image it can have at the age level. There is a “Monster Bash” planned for October.
 - Community Sponsored: Ms. Wood and Ms. Jones voiced their concerns regarding community sponsored dances being held at the school. They explained there was always confusion with parents about who was there chaperoning and caused multiple problems. The committee agreed that socials should be limited to STUCO sponsored when on this campus. This will be the same on the Lummus campus.
- ❖ CIP:
 - Campus Improvement Plan was passed out for review by committee members.
 - SBDM: roll to evaluate the CIP quarterly
 - Roll of CIP is to improve student performance for all student populations as well as support the district improvement plan.
- ❖ Meeting adjourned by Ms. Wood.
