

EISD Mobile Device User Agreement

Students and parents/guardians must adhere to this User Agreement, the Ennis I.S.D. Student Code of Conduct, Student Handbook, Acceptable Use Policy, Board policies, and federal/state laws related to technology in an educational setting.

It is the parent/student's responsibility to read and understand the terms of this Ennis I.S.D. Mobile Device User Agreement, which can also be found on the Ennis I.S.D. website under "Parent Resources."

For the current school year, Ennis ISD will continue to provide a 1:1 mobile device initiative for our students in Grade 5 through Grade 12. This means Ennis I.S.D. provides a personal electronic device for student access to digital textbooks, approved educational applications, and other appropriate online educational resources for each student in Grades 5 through 12 to use as part of the educational process.

All students in Grades 7 through 12 will be issued a Chromebook, a protective case, and a charger. All students in Grade 5 and Grade 6 will be assigned a Chromebook with protective case to be used exclusively at school. The assigned device for these students will remain on campus.

One-to-one (1:1) technology access is a great opportunity for enhanced learning. This initiative provides a blended learning environment in which students are prepared to be positive "digital citizens" who can actively engage in a variety of technology platforms and applications to further their own learning, both inside the classroom with their teacher and at home with parents. This will help our students become productive citizens of the 21st Century.

With that in mind, we expect our students to treat their assigned devices and accessories with the utmost care as with any traditional textbook or other school-issued equipment. In the event of breakage or misuse of the assigned device, the parent/student is responsible to pay the following costs to repair or replace the mobile device and/or its related parts or accessories.

Replacement Costs	
Chromebook	\$185 Basic Model
Charger	\$25
Protective Carrying Case	\$25
Screen Replacement	\$40 for each breakage/occurrence
Missing/broken keys	\$15 each

Finally, please note that it is the responsibility of the student to notify their campus administrator, teacher, or campus library media specialist of any issues with the device. Issues can range from screen breakage, missing keys, lost or stolen device/charger/case, damaged case, broken charger, or any other problem that changes the proper functioning of the device, case, or charger.
